and what have you

by BOB CRAIG

We received the following letter this week from Leon Thurman, Jones County Judge, and feel that it is of interest to all of the citizens of Jones County who are taxpayers.

Dear Mr. Craig:

There has been some false information put out as to the tax equalization in Jones County. It is our understanding that persons seeking elective offices are handing out type written forms with their own evaluation.

In order that all of the people of Jones County may know the situation we would like to bring you up to date.

The taxable property on tax rolls of Jones County has a value of over \$26,000,000.00. Of this \$26,000,000.00 the oil accounts for over 55% of the total. Each citizen knows that our oil production has declined, is declining and will continue to decline in the future. For the County government to operate it is necessary for property to be equalized for tax purposes.

It has been the hope of the Commissioners' Court that we find enough property that has not been rendered by the tax payers, to more than offset our losses of revenue of oil property. In our tax survey that we have had so far we are finding true, that many pieces of property are not rendered, and others rendered too low.

When one taxpayer does not render his property or renders it for a lower value than it should be, it creates a burden on the other tax payers. They pay more taxes than they should. While the one who renders it low or does not render it gets by with little or no taxes.

We feel that as citizens and tax payers that have been rendering their taxes properly are entitled to have an equal program in order that they will not have to pay over their pro rata share of taxes.

We have found in many instances that the taxes on houses in town will be lowered from what they are now.

This program is something that is not new. It is something that the Commissioners' Court of Jones County, Texas, has studied for some 10 to 12 years and finally realized that it needed to be done now and could not wait until the government got into a financial crisis. Of course, some property will have to pay more taxes than they now pay, but others will pay less.

The Commissioners' Court considered all angles in having the property of Jones County equalized. They even considered hiring local people but could not get away from the friendship angles and to be fair and equal to all tax payers, it was decided to hire outside experts. It costs a lot of money, seem-

COUNTY COURT LEARNS ENOUGH UNRENDERED PROPERTY MAY BE FOUND TO PAY FOR SURVEY

That sufficient unrendered or under-rendered property will be found in the current tax valuation survey in Jones County to underwrite the cost of the program appeared a distinct probability this week.

Some 400 to 500 houses around Lake Fort Phantom are not on the county rolls, officials of McMorries and Co., the firm making the survey, reported to the commissioners court Monday.

Mrs. J. M. Stubbs, 72, Dies Here Sunday Following Illness

Mrs. J. M. Stubbs, 72, died here at 5 a.m. Sunday in the Hamlin Memorial Hospital following an illness of several months. She had been in the hospital for two months.

Born Dovie Mooney, Sept. 7, 1891, she was the daughter of the late Mr. and Mrs. G. F. Mooney of Shirley. She was married to J. M. Stubbs at Martin Springs Aug. 11, 1911.

The couple came to the Hamlin area in 1919. Mr. Stubbs farmed northeast of Hamlin. He died July 24, 1953.

Funeral services were held at 2 p.m. Monday in the First Baptist Church where she was a member. Rev. Lenard Hartley, pastor, officiated. Burial was in Hamlin Memorial Cemetery.

Survivors include a brother, Ben Mooney of San Antonio; a sister, Mrs. Fannie Reed of Waco.

Pallbearers were Harold Nelson, Sigmond Stovall, Clarence Butler, Perry Lakey, E. A. Preston, Jack Grogan, Clarence Hyer, Harold Walsh, Raleigh Bond and Fred B. Moore Jr.

Attending the April 5-8 Gingers Convention in Dallas were Mr. and Mrs. Norman Carlton, Mr. and Mrs. Watts Fletcher and Mr. and Mrs. Ray Johnson.

In addition, numerous improvements on farms have been rendered and, in one instance an entire block of a subdivision to one of the county's owns was not on the tax roll.

At Monday's session, numerous farms in the county were checked, comparing valuations as determined by the survey with the property as it now appears on the tax records. It was explained how the valuations were obtained with different valuations being placed on land of different quality.

"Seldom, does a farm fall entirely in one category," a spokesman said. "Usually each piece of property will be made up of two possibly three classes. We have worked closely with the Soil Conservation Service in determining these classes," he declared.

At the present time the county tax valuation is supposed to be 20 per cent of the true valuation. It appeared to be the consensus of opinion Monday that this might be lowered to 15 or even 12 per cent after the survey is completed.

Target date for completing the work is August 1 but Mr. McMorries said that they hoped

to have the job done before that time. "We will be able to bring in some additional men next week and will be able to finish up earlier."

County Judge Leon Thurman had indicated that equalization board would set for oil property in June and said it would be good if hearings on other property could be held immediately thereafter.

The judge emphasized that the board will have an opportunity to appear before the equalization board to discuss his new valuation if he chooses.

MANMADE

A man made this beautiful little waterfall and improved his part of a little stream that ran by his house.

Another man on another stream threw trash in the water and let weeds grow up around it so that the beauty of the creek was obscured.

Man fashions many things out of that which God has created. Beauty or ugliness can result from our decisions as to what we will do with divine raw materials. Dedication to God and the desire to emulate Him usually makes the difference in what we do with what God has provided.

Let God find you in His church.

JIM LANGDON—A WINNER!

Railroad Commissioner Jim Langdon is a 49-year-old native Texan with a winning record in public office. When John Connally appointed him to the Railroad Commission, the Governor said:

"I have for several weeks been attempting to find a man I consider to have outstanding ability, integrity and honor. . . I am happy we have found that man — Judge Jim C. Langdon."

Jim Langdon has fully lived up to Governor Connally's expectations. He has conducted his office in the spirit of Governor Jim Hogg, who had the Commission set up in 1891 to look after the public interest in railroad and freight rates. It now regulates also truck and bus rates and the production of oil and gas. Judge Langdon will continue to keep transportation rates in line and see to it that our oil reserves are protected against waste and greed. This will help keep down Texas gasoline prices, already among the lowest in the nation.

Jim Langdon was elected District Judge twice and re-elected Chief Justice of the El Paso Court of Civil Appeals.

ON THE OTHER HAND—

Jim Langdon's Opponent Is a 10-Time Loser!

Jesse Owens, 69-year-old attorney, is still running for office after 38 years and TEN DEFEATS. He has lost the following races:

- 1926—Defeated for Sheriff of Foard County by L. D. Campbell.
- 1930—Defeated for District Attorney by John Meyers.
- 1932—Defeated for District Attorney by Ed Gossett.
- 1940—Defeated for District Attorney by T. Gene Rogers.
- 1946—Defeated for Court of Criminal Appeals by Tom L. Beauchamp.
- 1952—Defeated for Court of Criminal Appeals by K. K. Woodley.
- 1956—Defeated for Court of Criminal Appeals by W. A. Morrison.
- 1958—Defeated for District Judge by Tom Davis.
- 1960—Defeated for Court of Civil Appeals by James Denton.
- 1962—Defeated for Texas Supreme Court by Meade F. Griffin.

A Winner All the Way—

Jim C. Langdon

Menu For Spring Fever

When that first lazy feeling of spring makes meal preparation seem a chore, try table-top cooking as an escape from the kitchen. Portable electric cooking appliances lend variety and a gourmet touch to meal preparation. An electric aluminum skillet with automatic controls, a warming tray made of even heating aluminum, and an automatic coffee maker will permit you to be the leisurely hostess with the main course finished and served right at the dining table.

An attractive, tempting main dish is ham steak with a snappy cherry sauce served, perhaps, with parsleyed potatoes and a medley of green peas and mushrooms. The vegetables can be prepared slightly in advance and kept properly warm on the aluminum warming tray while the main course is getting its final cooking in the table-top skillet.

Ham with a Snappy Cherry Sauce
6 slices boneless ham 1/2-inch thick
1 #2 (1 lb., 6 oz.) can cherry pie filling
1 cup orange sections and juice
3/4 teaspoon ground cloves
1/4 teaspoon cinnamon

Heat electric aluminum skillet or buffet server to 350° F. and brown ham slices on both sides, pushing the browned slices to one side until all are browned. Mix cherry pie filling with orange slices and spices. Arrange browned slices in skillet and pour sauce over ham. When mixture boils, reduce heat to 240° F. Cover and cook 30 to 40 minutes, stirring once or twice. Yield: 6 servings.

We realize this morning that we are still living in West Texas, as the air is full of dust, just a reminder of the dry, sandy norther that blew in Sunday afternoon. Every one was hoping for a rain this week, since

the wheat is desperately in need of moisture, but those hopes just about faded away with the coming of just another sand storm, on the change of the moon.

We were hoping that with the coming of warm weather, colds and other sickness, would decrease, but our church had more absent Sunday than usual, from being ill. Mrs. Flavil Holmes is on the sick list, also her daughter Mrs. Jack Wright. And always count on Melinda Wright to come up with something different this time she has the pink-eye. We hear there if quit a lot of it in Hamlin, that is a disease that humans must have gotten from cows, as they always had it.

Mrs. Kenneth Leverett and both little girls are ill with colds.

Miss Maude Drake is still doing fine from surgery on her eye, and seeing better all time. She has asked me to take this opportunity, in her behalf, to offer her sincere thanks to all the people in Abilene, Anson and her home town, Hamlin, for being so nice to her in her illness. Only those that have been in her position, that of being blind, can appreciate what it means to see the things that we all take for granted every day. She says that every one looks pretty to her, so if you want to give your ego a boost, go down and let Maude look at you, and see the happiness reflect in her face, at being able to see you.

This community lost another neighbor last week. Mr. and Mrs. Raleigh Bond moved to town last Thursday, which was just in time to escape the sandstorm Sunday, for which we know Mrs. Bond is thankful.

Mr. and Mrs. Mel Jones visited with Mr. and Mrs. Fred Rosenbaum, Sunday afternoon.

We have been sorry to learn that Mrs. Johnnie Agnew has been in the Hamlin Hospital, the past week.

Fire destroyed the barn and contents belonging to Bill Ford, early last Tuesday night, also burning a feeder and some of his lot fence.

Rev. and Mrs. Kenneth Leverett and girls, went to Odessa last Thursday afternoon, and stayed until Saturday, visiting with his parents, Mr. and Mrs. H. L. Leverett, 1820 N. Jackson, Odessa, also a brother and family, Mr. and Mrs. Cletus Leverett, of the same city. Since they all got sick on their trip they were probably glad to get back home, since home always looks good when you don't feel good. Here is hoping them better luck next time.

Mr. and Mrs. E. A. Henry took off again last week end, this time to Midland, to see their son, Mr. and Mrs. Jimmy Henry and family. This was their first trip to see them in that place, since they formerly lived in Houston, having moved there from Oklahoma City. The big town don't frighten Mr. and Mrs. Henry, they go where they take a notion, they aren't ever going to get old.

Mr. and Mrs. Elmer Joiner came back by Anson Thursday afternoon, on their way home from Abilene, and visited with Mrs. R. E. Ray, in the Anson Hospital.

Mr. and Mrs. Woodrow Goodwin and Linda, ate dinner with the Winson Grays, Sunday.

Mr. and Mrs. H. L. Ford and Mr. and Mrs. Fred Rosenbaum, joined with Mr. and Mrs. Joe Ford, last Thursday night.

We have something from our church that we thought would be unusual to report. You know some people say religion is for women and children, well Sunday morning the men outnumbered the women in church, then Sunday night there were twice the men in church as women, and no children. Now we are not quoting any numbers about our attendance, just a chance to brag a little. We do hope all these ill and out for

other reasons, will be able to in their places next week, as they are always missed.

We see in passing that the Wayne Hodnett family has a new addition to their household, a beautiful little colt. Since they had lost two in the last two years, we know they are proud of this one, he looks frisky enough.

Bill Dominey returned home last week after a two-months' stay in Hendrick Memorial Hospital, Abilene, following injuries received in an accident at Celotex where he is employed.

Bridge Winners

Mrs. Jack Russell and Dan Gallagher were first place winners in the Tuesday evening session of the Hamlin Duplicate Bridge Club. Jack Russell and Bill Wood of Merkel were second. Mr. and Mrs. Harry Yates of Stamford were third.

Visiting over the week end with Mr. and Mrs. W. C. Eoff and Clifford were Mr. and Mrs. Ernest Henderson of Dallas; Pamela, Tommy and Kevin Hunn of Fort Worth; Tom and Atwell Henderson of Merkel.

Need More Time?

The housewife of the *Young Married Set* is involved with so many activities, she needs all the time she can lay her hands on. A Gold Medallion Home is the answer! It provides so many time-saving conveniences, it's just like adding more days to the ordinary 7-day week. For instance, the electric clothes dryer alone saves 3 hours weekly and even the electric dishwasher saves 7 hours a week...why, that's 10 hours already! Not to mention that the electric range is so automatic, it's like having a hired cook to do all the watching. And the electric water heater provides hot water instantly upon demand. Heating and cooling systems are automatic too... the thermostat is set at the start of the season and forgotten until the season changes.

This is just a smattering of the many ways the total electric Gold Medallion Home saves time for the *Young Married Set*. Oh yes, with a flameless total electric Gold Medallion Home, there's one less bill to pay each month.

ARLEDGE—

—Continued from page one
ery tub on its own bottom' evaluator, and believe in acting expediently in behalf of the welfare of the people as a whole," Arledge added.

State Representative Arledge held five key committee assignments in the last session of the Texas Legislature, all of them harnessing in the interest of service to the people his long productive experience in several realms of fruitful business endeavor. He served on the following committees: Motor Transportation, Oil and Gas, State Hospitals and Special Schools; Livestock and Stock Raising; and Public Lands and Buildings.

It was Representative Arledge who last session initiated and secured passage of HB 733 which permits schools to have the same authority as municipalities to collect taxes. This was an important and constructive legislative step to school officials, who prior to passage of the law, could not enforce a lien on personal property.

The legislator from Stamford also led the drive for passage of HB 684 which would stop abuse of the privilege of use of state-owned executive type airplanes for multi-purpose junkets at taxpayers' expense. Here again Arledge's prior experience stood him in good stead, to better serve the people. He was a pioneer in the use of the airplane in ranching operations. And he has been active in the development of aviation in West Texas. For his work in securing an Air Force training station at Stamford during World War II, the town named the base for him.

Arledge is past president of the Texas Private Flyers Association.

Commenting on his first term in the Texas Legislature this week, Representative Arledge unreservedly praised Governor John Connally, Lieutenant Governor Preston Smith, Attorney General Waggoner Carr, and House Speaker Byron Tunnell for their "economic, efficient, and forthright discharge of responsibility and duty in conducting all activities of the session." He pointed out that the last session of the Legislature was completed in less than the allotted time under law, precluding the calling of a special session, thereby again saving the taxpayers money, and establishing a record. It was the first time in more than 20 years a Legislature has completed its work in so brief a period, Arledge pointed out.

As a farmer-rancher, Arledge has raised cattle, grain, and cotton, and his first-hand knowledge of the problems of people who make their livelihood this way. For 12 years, he was chairman of the Quarter-horse Division of the Texas Cowboy Reunion. He and his brother, Henry Arledge, of Seymour, with whom he was in the cattle business many years, have won many grand championships with their entries at Southwest Stock Shows.

No newcomer to the political scene at the local level, which has provided him with a grass-roots viewpoint of problems and projects of the folks he represents in Austin, Arledge

was a member of the City Council at his home town, Stamford for six years.

Arledge entered the business field as an ice manufacturer at Rochester, in Haskell County, where he lived and worked for five years. In this business, he quickly rose to the top, as attested by his election to the presidency of the Southwestern Ice Manufacturers Association.

A leader in Boy Scout work, Arledge is one of a comparatively few men in the Chisholm Trail Council who have received the Silver Beaver Award, reserved for the peak recognition of service to Scouting by an individual. He is also active in the First Baptist Church of Stamford.

Arledge and his wife, the former Lois Lee, of Haskell County, who taught school in the Rochester area for several years, have lived in Stamford since 1930. They have two sons, Jack in the automobile business in Midland, and Jimmy, a building contractor of Abilene.

The state legislator is a past president of the Exchange Club of Stamford and a former officer in that civic organization.

Arledge is the son of the late Thomas Emitt Arledge, Nolan county rancher. His mother now lives in Sweetwater.

During his time back in the district, Arledge has been tireless in his contacts with people he serves in Austin, making each town, and fence line to fence line, in his efforts to better determine the needs and views of "the folks at home I represent."

ingly; however, considering the County as a whole the cost is not great. We believe that each tax payer when they consider all angles, will feel proud of the commissioners' Court for taking the initiative in this program. Most of the civic organizations and Farm Bureau have urged the Court to do this for sometime. Some of the larger companies have threatened to refuse to pay their taxes because they were not equal. It is our opinion that they would wish such lawsuit and the County would be forced into such program at much greater cost.

Each property owner in Jones County, Texas, will have an opportunity to meet with the Board of Equalization and discuss their tax problem at the appropriate time. We ask that if you seek any information please go to someone who knows the tax structure of the county government and receive the correct information, and do not let someone sit down and fill you full of figures which he does not even know what he is talking about. Again, if you have any questions please call my office. We want the taxpayers to know that at this time the Commissioners' Court does not even have the tax rate or the per centage available for anyone to figure taxes by and persons giving out this information have no idea of the tax rate or what the evaluation will be.

Respectfully submitted,
Leon Thurman

and not as hardened criminals. I don't think mud-slinging should have any part in a political campaign. The test for candidates should be on equal qualifications: what kind of man is the candidate? can he do the job, most important, will he do the job?

The sheriff's office is not a one-man job, it's teamwork. It demands a dedicated and qualified staff. It demands the ability to work with all other officials, in harmony to get effective results.

For the information of those I have not met, I was reared at Stamford, graduated from Stamford High School, served on the City Council from 1952 until 1956, past president of

the Stamford Junior Chamber of Commerce, member of the Stamford Lions Club, Church of Christ, and have been in the grocery business most of my adult life.

RE-ELECT THE QUIET MAN WHO GETS THINGS DONE

OMAR BURLESON

Born and raised in Jones county

Is a lawyer. Served as County Attorney, County Judge, Special Agent FBI and in U.S. Navy, WW II.

YOUR CONGRESSMAN FOR 10 YEARS ELECTED WHEN 40.

Married, lives in Anson, Texas.

INCOME TAX REDUCTION

The income tax reduction bill that became effective in April of 1964 had the vote and support of OMAR BURLESON who has long felt that tax relief for the public was one of the most important issues before Congress.

LIMITED BEEF IMPORTS

OMAR BURLESON introduced a bill in Congress to limit the imports of beef from foreign countries. With a 25% wholesale price decrease caused by foreign imports this bill would provide a broader market for the ranchers and cattlemen. Retail prices remain high.

REDUCE FEDERAL BUDGET

Long an advocate for lower federal spending, OMAR BURLESON, in his 18 years in Congress, has voted to reduce the federal budget from three to 13 BILLION dollars each of his nine Congressional terms. He has never voted to reduce defense expenditures.

CUBAN EMBARGO

During the Cuban affair OMAR BURLESON introduced a bill for a complete embargo on trade with that country. He voted against the sale of wheat to Russia, recognizing that it would encourage our allies to sell to Cuba which they have done in fact.

CIVIL RIGHTS

Because the present form of the Civil Rights bill contains provisions to limit the freedoms of all Americans, he voted against it. He is for the constitutional guarantees for all Americans regardless of status.

LIMITED OIL IMPORTS

In 1949 OMAR BURLESON introduced the first bill to limit oil imports, and then voted for the bill that gave the President of the United States power to limit or abolish oil imports.

REDUCE COMMITTEE BUDGETS

As chairman of the House Administration Committee, OMAR BURLESON has consistently reduced the spending of congressional committees. He reduced Adam Clayton Powell's committee spending budget by 50%.

FOREIGN AID

OMAR BURLESON has voted against foreign aid since the late 1940s. The recent reaction in Congress as to drastically reducing foreign aid and discussion about abolishing it proves him correct.

and what have you

by BOB CRAIG

We received the following letter this week from Leon Thurman, Jones County Judge, and feel that it is of interest to all of the citizens of Jones County who are taxpayers.

Dear Mr. Craig:

There has been some false information put out as to the tax equalization in Jones County. It is our understanding that persons seeking elective offices are handing out type written forms with their own evaluation.

In order that all of the people of Jones County may know the situation we would like to bring you up to date.

The taxable property on tax rolls of Jones County has a value of over \$26,000,000.00. Of this \$26,000,000.00 the oil accounts for over 35% of the total. Each citizen knows that our oil production has declined, is declining and will continue to decline in the future. For the County government to operate it is necessary for property to be equalized for tax purposes.

It has been the hope of the Commissioners' Court that we find enough property that has not been rendered by the tax payers, to more than offset our losses of revenue of oil property. In our tax survey that we have had so far we are finding true, that many pieces of property are not rendered, and others rendered too low.

When one tax payer does not render his property or renders it for a lower value than it should be, it creates a burden on the other tax payers. They pay more taxes than they should. While the one who renders it low or does not render it gets by with little or no taxes.

We feel that as citizens and tax payers that have been rendering their taxes properly are entitled to have an equal program in order that they will not have to pay over their pro rata share of taxes.

We have found in many instances that the taxes on houses in town will be lowered from what they are now.

This program is something that is not new. It is something that the Commissioners' Court of Jones County, Texas, has studied for some 10 to 12 years and finally realized that it needed to be done now and could not wait until the government got into a financial crisis. Of course, some property will have to pay more taxes than they now pay, but others will pay less.

The Commissioners' Court considered all angles in having the property of Jones County equalized. They even considered hiring local people but could not get away from the friendship angles and to be fair and equal to all tax payers, it was decided to hire outside experts. It costs a lot of money, seem-

COUNTY COURT LEARNS ENOUGH UNRENDERED PROPERTY MAY BE FOUND TO PAY FOR SURVEY

That sufficient "unrendered" or under-rendered property will be found in the current tax valuation survey in Jones County to underwrite the cost of the program appeared a distinct probability this week.

Some 400 to 500 houses around Lake Fort Phantom are not on the county rolls, officials of McMorries and Co., the firm making the survey, reported to the commissioners court Monday.

Mrs. J. M. Stubbs, 72, Dies Here Sunday Following Illness

Mrs. J. M. Stubbs, 72, died here at 5 a.m. Sunday in the Hamlin Memorial Hospital following an illness of several months. She had been in the hospital for two months.

Born Dovie Mooney, Sept. 7, 1891, she was the daughter of the late Mr. and Mrs. G. F. Mooney of Shirley. She was married to J. M. Stubbs at Martin Springs Aug. 11, 1911.

The couple came to the Hamlin area in 1919. Mr. Stubbs farmed northeast of Hamlin. He died July 24, 1953.

Funeral services were held at 2 p.m. Monday in the First Baptist Church where she was a member. Rev. Lenard Hartley, pastor, officiated. Burial was in Hamlin Memorial Cemetery.

Survivors include a brother, Ben Mooney of San Antonio; a sister, Mrs. Fannie Reed of Waco.

Pallbearers were Harold Nelson, Sigmond Stovall, Clarence Butler, Perry Lakey, E. A. Preston, Jack Grogan, Clarence Hyer, Harold Walsh, Raleigh Bond and Fred B. Moore Jr.

Attending the April 5-8 Gingers Convention in Dallas were Mr. and Mrs. Norman Carlton, Mr. and Mrs. Watts Fletcher and Mr. and Mrs. Ray Johnson.

In addition, numerous improvements on farms have not been rendered and, in one instance an entire block of a subdivision to one of the county's owners was not on the tax roll.

At Monday's session, numerous farms in the county were checked, comparing valuations as determined by the survey with the property as it now appears on the tax records. It was explained how the valuations were obtained with different valuations being placed on land of different quality.

"Seldom does a farm fall entirely in one category", a spokesman said. "Usually each piece of property will be made up of two possibly three classes. We have worked closely with the Soil Conservation Service in determining these classes," he declared.

At the present time the county tax valuation is supposed to be 20 per cent of the true valuation. It appeared to be the consensus of opinion Monday that this might be lowered to 15 or even 12 per cent after the survey is completed.

Target date for completing the work is August 1 but Mr. McMorries said that they hoped

to have the job done before that time. "We will be able to bring in some additional men next week and will be able to finish up earlier."

County Judge Leon Thurman had indicated that equalization board would set for oil property in June and said it would be good if hearings on other property could be held immediately thereafter.

The judge emphasized that the board will have an opportunity to appear before the board to discuss his new valuation if he chooses.

JIM LANGDON—A WINNER!

Railroad Commissioner Jim Langdon is a 49-year-old native Texan with a winning record in public office. When John Connally appointed him to the Railroad Commission, the Governor said:

"I have for several weeks been attempting to find a man I consider to have outstanding ability, integrity and honor... I am happy we have found that man — Judge Jim C. Langdon."

Jim Langdon has fully lived up to Governor Connally's expectations. He has conducted his office in the spirit of Governor Jim Hogg, who had the Commission set up in 1891 to look after the public interest in railroad and freight rates. It now regulates also truck and bus rates and the production of oil and gas. Judge Langdon will continue to keep transportation rates in line and see to it that our oil reserves are protected against waste and greed. This will help keep down Texas gasoline prices, already among the lowest in the nation.

Jim Langdon was elected District Judge twice and re-elected Chief Justice of the El Paso Court of Civil Appeals.

ON THE OTHER HAND—

Jim Langdon's Opponent Is a 10-Time Loser!

Jesse Owens, 69-year-old attorney, is still running for office after 38 years and TEN DEFEATS. He has lost the following races:

- 1926—Defeated for Sheriff of Foard County by L. D. Campbell.
- 1930—Defeated for District Attorney by John Meyers.
- 1932—Defeated for District Attorney by Ed Gossett.
- 1940—Defeated for District Attorney by T. Gene Rogers.
- 1946—Defeated for Court of Criminal Appeals by Tom L. Beauchamp.
- 1952—Defeated for Court of Criminal Appeals by K. K. Woodley.
- 1956—Defeated for Court of Criminal Appeals by W. A. Morrison.
- 1958—Defeated for District Judge by Tom Davis.
- 1960—Defeated for Court of Civil Appeals by James Denton.
- 1962—Defeated for Texas Supreme Court by Meade F. Griffin.

A Winner All the Way—

Jim C. Langdon

for Railroad Commissioner

Menu For Spring Fever

When that first lazy feeling of spring makes meal preparation seem a chore, try table-top cooking as an escape from the kitchen. Portable electric cooking appliances lend variety and a gourmet touch to meal preparation. An electric aluminum skillet with automatic controls, a warming tray made of even heating aluminum, and an automatic coffee maker will permit you to be the leisurely hostess with the main course finished and served right at the dining table.

An attractive, tempting main dish is ham steak with a snappy cherry sauce served, perhaps, with parsleyed potatoes and a medley of green peas and mushrooms. The vegetables can be prepared slightly in advance and kept properly warm on the aluminum warming tray while the main course is getting its final cooking in the table-top skillet.

Ham with a Snappy Cherry Sauce

6 slices boneless ham 1/2-inch thick
1 1/2 (1 lb., 6 oz.) can cherry pie filling
1 cup orange sections and juice
1/4 teaspoon ground cloves
1/4 teaspoon cinnamon

Heat electric aluminum skillet or buffet server to 350° F and brown ham slices on both sides, pushing the browned areas to one side until all are browned. Mix cherry pie filling with orange slices and spices. Arrange browned slices in skillet and pour sauce over ham. When mixture boils, reduce heat to 240° F. Cover and cook 30 to 40 minutes, stirring once or twice. Yield: 6 servings.

A workshop in upholstery furniture will be conducted by Alice Kemp, Fisher County Home Demonstration Agent beginning April 21. The first meeting will begin at 2:30 in the Agriculture Building in Roby. At this meeting equipment, supplies and other details of the workshop will be discussed.

The actual workshop will be conducted in four all day meetings in May. Everyone attending will be expected to participate in the workshop.

For further details, those interested are invited to attend the meeting April 21.

the wheat is desperately in need of moisture, but those hopes just about faded away with the coming of just another sand storm, on the change of the moon.

We were hoping that with the coming of warm weather, colds and other sickness, would decrease, but our church had more absent Sunday than usual, from being ill. Mrs. Flavil Holmes is on the sick list, also her daughter Mrs. Jack Wright. And always count on Melinda Wright to come up with something different this time she has the pink-eye. We hear there if quit a lot of it in Hamlin, that is a disease that humans must have gotten from cows, as they always had it.

Mrs. Kenneth Leverett and both little girls are ill with colds.

Miss Maude Drake is still doing fine from surgery on her eye, and seeing better all time. She has asked me to take this opportunity, in her behalf, to offer her sincere thanks to all the people in Abilene, Anson and her home town, Hamlin, for being so nice to her in her illness. Only those that have been in her position, that of being blind, can appreciate what it means to see the things that we all take for granted every day. She says that every one looks pretty to her, so if you want to give your ego a boost, go down and let Maude look at you, and see the happiness reflect in her face, at being able to see you.

This community lost another neighbor last week. Mr. and Mrs. Releigh Bond moved to town last Thursday, which was just in time to escape the sand-storm Sunday, for which we know Mrs. Bond is thankful.

Mr. and Mrs. Mel Jones visited with Mr. and Mrs. Fred Rosenbaum, Sunday afternoon.

We have been sorry to learn that Mrs. Johnnie Agnew has been in the Hamlin Hospital, the past week.

Fire destroyed the barn and contents belonging to Bill Ford, early last Tuesday night, also burning a feeder and some of his lot fence.

Rev. and Mrs. Kenneth Leverett and girls, went to Odessa last Thursday afternoon and stayed until Saturday, visiting with his parents, Mr. and Mrs. H. L. Leverett, 1820 N. Jackson, Odessa, also a brother and family, Mr. and Mrs. Cletus Leverett, of the same city. Since they all got sick on their trip they were probably glad to get back home, since home always looks good when you don't feel good. Here is hoping them better luck next time.

Mr. and Mrs. E. A. Henry took off again last week end, this time to Midland, to see their son, Mr. and Mrs. Jimmy Henry and family. This was their first trip to see them in that place, since they formerly lived in Houston, having moved there from Oklahoma City. The big town don't frighten Mr. and Mrs. Henry, they go where they take a notion, they aren't ever going to get old.

Mr. and Mrs. Elmer Joiner came back by Anson Thursday afternoon, on their way home from Abilene, and visited with Mrs. R. E. Ray, in the Anson Hospital.

Mr. and Mrs. Woodrow Goodwin and Linda, ate dinner with the Winson Grays, Sunday.

Mr. and Mrs. H. L. Ford and Mr. and Mrs. Fred Rosenbaum, visited with Mr. and Mrs. Joe Ford, last Thursday night.

We have something from our church that we thought would be unusual to report. You know some people say religion is for women and children, well Sunday morning the men outnumbered the women in church, then Sunday night there were twice the men in church as women, and no children. Now we are not quoting any numbers about our attendance, just a chance to brag a little. We do hope all those ill and out for

other reasons, will be able to in their places next week, as they are always missed.

We see in passing that the Wayne Hodnett family has a new addition to their household, a beautiful little colt. Since they had lost two in the last two years, we know they are proud of this one, he looks frisky enough.

Bill Dominey returned home last week after a two-months' stay in Hendrick Memorial Hospital, Abilene, following injuries received in an accident at Celotex where he is employed.

Bridge Winners

Mrs. Jack Russell and Dan Gallagher were first place winners in the Tuesday evening session of the Hamlin Duplicate Bridge Club. Jack Russell and Bill Wood of Merkel were second. Mr. and Mrs. Harry Yates of Stamford were third.

Visiting over the week end with Mr. and Mrs. W. C. Eoff and Clifford were Mr. and Mrs. Ernest Henderson of Dallas; Pamela, Tommy and Kevin Hunn of Fort Worth; Tom and Atwell Henderson of Merkel.

Need More Time?

The housewife of the *Young Married Set* is involved with so many activities, she needs all the time she can lay her hands on. A Gold Medallion Home is the answer! It provides so many time-saving conveniences, it's just like adding more days to the ordinary 7-day week. For instance, the electric clothes dryer alone saves 3 hours weekly and even the electric dishwasher saves 7 hours a week...why, that's 10 hours already! Not to mention that the electric range is so automatic, it's like having a hired cook to do all the watching. And the electric water heater provides hot water instantly upon demand. Heating and cooling systems are automatic too... the thermostat is set at the start of the season and forgotten until the season changes.

This is just a smattering of the many ways the total electric Gold Medallion Home saves time for the *Young Married Set*. Oh yes, with a *flameless* total electric Gold Medallion Home, there's one less bill to pay each month.

ARLEDGE—

—Continued from page one
ery tub on its own bottom' evaluator, and believe in acting expediently in behalf of the welfare of the people as a whole," Arledge added.

State Representative Arledge held five key committee assignments in the last session of the Texas Legislature, all of them harnessing in the interest of service to the people his long productive experience in several realms of fruitful business endeavor. He served on the following committees: Motor Transportation, Oil and Gas, State Hospitals and Special Schools; Livestock and Stock Raising; and Public Lands and Buildings.

It was Representative Arledge who last session initiated and secured passage of HB 733 which permits schools to have the same authority as municipalities to collect taxes. This was an important and constructive legislative step to school officials, who prior to passage of the law, could not enforce a lien on personal property.

The legislator from Stamford also led the drive for passage of HB 684 which would stop abuse of the privilege of use of state owned executive type airplanes for multi-purpose junkets at taxpayers' expense. Here again Arledge's prior experience stood him in good stead, to better serve the people. He was a pioneer in the use of the airplane in ranching operations. And he has been active in the development of aviation in West Texas. For his work in securing an Air Force training station at Stamford during World War II, the town named the base for him.

Arledge is past president of the Texas Private Flyers Association.

Commenting on his first term in the Texas Legislature this week, Representative Arledge unreservedly praised Governor John Connally, Lieutenant Governor Preston Smith, Attorney General Waggoner Carr, and House Speaker Byron Tunnell for their "economic, efficient, and forthright discharge of responsibility and duty in conducting all activities of the session." He pointed out that the last session of the Legislature was completed in less than the allotted time under law, precluding the calling of a special session, thereby again saving the taxpayers money, and establishing a record. It was the first time in more than 20 years a Legislature has completed its work in so brief a period, Arledge pointed out.

As a farmer-rancher Arledge has raised cattle, grain, and cotton, and his first-hand knowledge of the problems of people who make their livelihood this way. For 12 years, he was chairman of the Quarterhorse Division of the Texas Cowboy Reunion. He and his brother, Henry Arledge, of Seymour, with whom he was in the cattle business many years, have won many grand championships with their entries at Southwest Stock Shows.

No newcomer to the political scene at the local level, which has provided him with a grass-roots viewpoint of problems and projects of the folks he represents in Austin, Arledge

was a member of the City Council at his home town, Stamford for six years.

Arledge entered the business field as an ice manufacturer at Rochester, in Haskell County, where he lived and worked for five years. In this business, he quickly rose to the top, as attested by his election to the presidency of the Southwestern Ice Manufacturers Association.

A leader in Boy Scout work, Arledge is one of a comparatively few men in the Chisholm Trail Council who have received the Silver Beaver Award, reserved for the peak recognition of service to scouting by an individual. He is also active in the First Baptist Church of Stamford.

Arledge and his wife, the former Lois Lee, of Haskell County, who taught school in the Rochester area for several years, have lived in Stamford since 1930. They have two sons, Jack in the automobile business in Midland, and Jimmy, a building contractor of Abilene.

The state legislator is a past president of the Exchange Club of Stamford and a former officer in that civic organization.

Arledge is the son of the late Thomas Emit Arledge, Nolan county rancher. His mother now lives in Sweetwater.

During his time back in the district, Arledge has been tireless in his contacts with people he serves in Austin, making each town, and fence-line to fence-line, in his efforts to better determine the needs and views of "the folks at home I represent."

ingly; however, considering the County as a whole the cost is not great. We believe that each tax payer when they consider all angles, will feel proud of the commissioners' Court for taking the initiative in this program. Most of the civic organizations and Farm Bureau have urged the Court to do this for sometime. Some of the larger companies have threatened to refuse to pay their taxes because they were not equal. It is our opinion that they would win such lawsuit and the County would be forced into such program at much greater cost.

Each property owner in Jones County, Texas, will have an opportunity to meet with the Board of Equalization and discuss their tax problem at the appropriate time. We ask that if you seek any information please go to someone who knows the tax structure of the county government and receive the correct information, and do not let someone sit down and fill you full of figures which he does not even know what he is talking about. Again, if you have any questions please call my office. We want the taxpayers to know that at this time the Commissioners' Court does not even have the rate or the per centage available for anyone to figure taxes by and persons giving out this information have no idea of the tax rate or what the evaluation will be.

Respectfully submitted,
Leon Thurman
County Judge

and not as hardened criminals. I don't thing mud-slinging should have any part in a political campaign. The test for candidates should be on equal qualifications; what kind of man is the candidate? can he do the job, most important, will he do the job?

The sheriff's office is not a one-man job, it's teamwork. It demands a dedicated and qualified staff. It demands the ability to work with all other officials, in harmony to get effective results.

For the information of those I have not met, I was reared at Stamford, graduated from Stamford High School, served on the City Council from 1952 until 1956, past president of

the Stamford Junior Chamber of Commerce, member of the Stamford Lions Club, Church of Christ, and have been in the grocery business most of my adult life.

I believe by training and experience are of the type necessary to handle the duties of Sheriff, and I earnestly solicit

your vote, and influence in the coming primary.

RE-ELECT THE QUIET MAN WHO GETS THINGS DONE OMAR BURLESON

Born and raised in Jones county

Is a lawyer. Served as County Attorney, County Judge, Special Agent FBI and in U.S. Navy, WW II.

YOUR CONGRESSMAN FOR
13 YEARS ELECTED
WHEN 40.

Married, lives in Anson, Texas.

INCOME TAX REDUCTION

The income tax reduction bill that became effective in April of 1964 had the vote and support of OMAR BURLESON who has long felt that tax relief for the public was one of the most important issues before Congress.

LIMITED BEEF IMPORTS

OMAR BURLESON introduced a bill in Congress to limit the imports of beef from foreign countries. With a 25% wholesale price decrease caused by foreign imports this bill would provide a broader market for the ranchers and cattlemen. Retail prices remain high.

REDUCE FEDERAL BUDGET

Long an advocate for lower federal spending, OMAR BURLESON, in his 13 years in Congress, has voted to reduce the federal budget from three to 13 BILLION dollars each of his nine Congressional terms. He has never voted to reduce defense expenditures.

CUBAN EMBARGO

During the Cuban affair OMAR BURLESON introduced a bill for a complete embargo on trade with that country. He voted against the sale of wheat to Russia, recognizing that it would encourage our allies to sell to Cuba which they have done in fact.

CIVIL RIGHTS

Because the present form of the Civil Rights bill contains provisions to limit the freedoms of all Americans, he voted against it. He is for the constitutional guarantees for all Americans regardless of status.

LIMITED OIL IMPORTS

In 1949 OMAR BURLESON introduced the first bill to limit oil imports, and then voted for the bill that gave the President of the United States power to limit or abolish oil imports.

REDUCE COMMITTEE BUDGETS

As chairman of the House Administration Committee, OMAR BURLESON has consistently reduced the spending of congressional committees. He reduced Adam Clayton Powell's committee spending budget by 50%.

FOREIGN AID

OMAR BURLESON has voted against foreign aid since the late 1940s. The recent reaction in Congress as to drastically reducing foreign aid and discussion about abolishing it proves him correct.
